II. Cash allowances from the Government Treasury, under whatever name they may be entered in the public accounts, shall be recorded at the amount so entered in the accounts of the year.

III. The sum total of the emoluments valued according to the above two rules is to be taken as the existing valuation of the emoluments of the office.

IX. The salaries of officiators fixed by the preceding rule form the minimum rate of remuneration; but an addition to the fixed portion of the officiator's allowance, according to scale, will be made in certain cases specified in the following subsidiary rules.

X. When the difference between the total of existing emoluments (as found by Rules I and II) and that as fixed by Rule V or VI falls short of rupees 5 in the case of villages having a gross revenue of less than Rs. 500, and of Rs. 10 in case of villages having a gross revenue in excess of Rs. 1,000, this difference shall be assigned as a permanent fixed allowance to the officiator in excess of his salary as fixed by Rule V or VI.

XI. When the total of existing emoluments is large, *viz.*, when it exceeds the salary of the officiator as fixed by Rule V or VI, 10 per cent of this excess will be assigned as a permanent fixed allowance to the officiator in excess of his salary as fixed by Rule V or VI.

XII. In the case of towns, large villages, and villages in the vicinity of Railway stations, camping grounds, large marts and similar localities, the Patels of which are ordinarily called upon to perform heavy miscellaneous duties, an extra allowance not exceeding Rs. 15 per annum will be assigned to the Patel (and where there are two Officiating Patels to each Patel) in addition to the salary of the office fixed by the scales in Rule VIII.

XIII. The gross revenue of the village, referred to in Rules V and VI, is the whole revenue leviable for any year before deducting any remissions.

XIV. Patels and Shanbhogs shall receive their emoluments by a deduction of the amount of the same from the assessment on their *kandayam* lands, the same being adjusted at each annual jamabandi and duly shewn accordingly in the village accounts, to prevent complications. Where the assessment on their lands is insufficient for this purpose, the balance will be made up by their deducting it from the last instalment of revenue, before paying such instalment into the Taluk Treasury. In this latter event, the receipt of the Patel or Shanbhog for the amount of such balance as so deducted shall be considered equivalent to the payment into the Treasury of an equal sum in cash.

XV. The amount of quit-rent fixed on the holding of each share-holder is fixed for the term of settlement, but the total emoluments of the officiators will be revised once after ten years, and will be modified according to the same scale in proportion to the revenues of the village as then realized.

XVI. When the assessment of the occupied arable land, (exclusive of alienations) in the year in which the settlement of remuneration of Village Officers is made, exceeds five-sixths of the assessment of the entire arable land (exclusive of alienations) in any village, the gross revenue of the year will be taken for the calculation of the remuneration of the officiators.

XVII. When the assessment of the arable land, specified in the preceding rule, in occupation in the year in which the settlement of the village officiators is made, falls short of five-sixths of the gross assessment of all the arable land (exclusive of alienations) in the village, then five-sixths of such gross assessment shall be taken for the calculation of the remuneration of the officiators.

XVIII. The existing official emoluments valued as provided for in Rules I and II will be appropriated for the support of the officiator in the manner specified in the following rules, and the balance of emoluments remaining, after providing for the officiator, is to be disposed of for the future in the manner also provided for in these rules.

XIX. The emoluments derived from land as fixed by Rule I shall first be appropriated to provide the salary of the officiator.

XX. When the emoluments derived from land are insufficient to provide the salary of the officiators, the cash emoluments from the Government Treasury will next be appropriated to make up the salary of the officiator.

XXI. Any deficiency, after appropriating all the emoluments from land and cash, shall be made good from the Government Treasury.

XXII. Any surplus on the existing emoluments in land and cash remaining over, after providing the salary of the officiator, shall be dealt with as follows.

XXIII. If the emoluments derived from land alone are more than sufficient to provide the salary of the officiator, the surplus shall be taxed by the imposition of additional *jodi* equal to one half the profits on the above land, the profits being the difference between the *jodi* payable thereon and the full survey assessment or valuation.

XXIV. Any surplus remaining out of the cash emoluments after providing the salary of the officiator shall be at once resumed by Government.

XXV. When the official land of any office is held in shares, and these shares, with the amount of *jodi* and other cesses now payable on each, are separately recorded in the village accounts, then the additional tax imposed upon the whole official land of the office under this rule is to be apportioned on the several shares in proportion to the sum by which the full survey assessment of the land of each share exceeds the present *jodi* and other cesses payable on the same, as shewn in the following example, in which the emolument of an officiator amounts to Rs. 30—0—0.

Names and Shares.	Survey assessment of the land of each share.	Deduct <i>jodi</i> cess now paid on each share.	Remaining profit on each share.	Addition to <i>jodi</i> in col. 3 apportioned on profit in col. 4 for payment of officiator.	Unappropriated excess of profits, being difference between cols. 4 and 5.	Additional half <i>jodi</i> on excess in last column.	Future <i>jodi</i> cess on each share being sum of cols. 3 5 and 7.

XXVI. In settling the amount of *jodi* to be paid upon each share, fractions of less amount than $\frac{1}{2}$ rupee are not to be admitted into the accounts in accordance with the rule followed in regard to all survey assessments.

XXVII. Nothing contained in any of the preceding rules shall be considered as debarring any village hereditary officer from relinquishing his official land when so disposed; and every such officer shall, at any time, whether at or subsequent to the introduction of the settlement prescribed in these rules, be permitted to relinquish by written *Razinama* any entire field or fields into which official land may have been marked off by the Survey, and on so doing the relinquished field is immediately to be entered in the accounts as Government land, and the *jodi* tax payable by the hereditary officer is to be reduced by the full amount of the survey assessment of the relinquished fields.

XXVIII. The official land under the settlement prescribed in the foregoing rule will form no part of the remuneration of the officiator, who is to be paid wholly in cash, and the land will therefore remain in the possession of the sharers who may at present hold it.

XXIX. The charges of Shanbhogs will be redistributed so as to give each officiator as many villages as he is capable of managing. When more villages than form a sufficient charge are already in the hands of one officiator, he will be required to give up the surplus villages, for which one or more new officiators will be appointed by Government. The new officiator or officiators will be appointed from the family in which the *Hak* has been hitherto vested if a competent person can be found.

XXX. In all cases of incompetency of the officiator in direct hereditary succession, whether from age, sex, inefficiency, or any other cause, the next of kin, if competent, will be appointed; if no

competent person of the family can be found, the nomination will rest with Government. Such nomination to hold good in case of a minority till the end of the year in which the minor shall attain full age (18 years); in other cases for 3 years, when the nomination will revert to the hereditary family if a competent person can be found therein.

XXXI. Any conviction of malversation in performance of official duties shall render the person convicted incompetent to officiate again, and shall deprive him, in cases of selection being vested in the members of the family, of any right to take part in such selection. It shall also be in the power of the District Officer to exclude the son of a person so convicted from any of the rights or privileges of the office so far as succession or election to the performance of the duties.

XXXII. The District Officer will be the sole judge of the competency or otherwise of the person on whom devolves the performance of the duties of an office.

XXXIII. In arranging charges, except in the case of single villages, as a rule no one officiator shall hold charge of villages with a collection of more than about Rs. 2,500, and when five or more villages are combined in one charge, no one officiator shall, as a rule, hold more villages than give a revenue of about Rs. 1,600.

XXXIV. In small villages where only one office, either Patel or Shanbhog, at present exists, or where both offices are vested in one person, he shall receive the full salary shewn by the Shanbhog's scale, and 50 per cent of the Patel's salary according to scale, so long as he continues to perform the duties of both offices.

XXXV. In large villages where there is no Patel or where both offices have been vested in the same person, a Patel will be appointed by Government, or the one family holding both offices may be called upon to nominate a separate officiator for each office as may seem fit to Government.

XXXVI. By Circular Notification of the Commissioner of Mysore of the 11th September 1835, lands of village officers held on condition of service to Government are declared to be inalienable by sale mortgage, gift or otherwise. The provisions of this Circular will be strictly enforced.

XXXVII. The remuneration of the Officiating Patels and Shanbhogs shall be fixed on the scale for each, and the sum payable to each officiator shall be his exclusive perquisite, on which no other member of the family shall have any claim.

XXXVIII. The Patel and Shanbhog shall in all cases reside in the village or one of the villages constituting their charge. No Patel or Shanbhog shall absent himself from his charge for more than seven days, without previously obtaining leave from the Amildar of the Taluk.

SCHOOL OF ENGINEERING AND NATURAL SCIENCE.

No. 247.

The 20th November 1874.

With the sanction of His Excellency the Governor General in Council conveyed in the despatch noted in the margin, a school for the education of natives for the Departments of (1) Public Works, (2) Revenue Survey and Settlement, and (3) Forests, will be established in connection with the Bangalore High School, on or about the 1st of April 1875, under the designation of the "School of Engineering and Natural Science." The school will consist of two departments termed Upper and Lower Divisions designed respectively to furnish employes for the Upper and Subordinate Establishments of the Departments referred to above.

2. The selection of candidates for nomination to the Upper and Lower Divisions of the school respectively will be made annually in the month of March, under the orders of the Chief Commissioner, and will be restricted to youths of not less than 17 or more than 22 years of age, of good health and physique, (as certified by competent medical authority), of active habits and who are prepared to serve in any part of the Province of Mysore.

3. All candidates for the Upper Division of the school must previously to nomination have passed the University "First-in-Arts" Examination. Those for the Lower Division who are intended to fill grades corresponding with the present Upper Subordinate Establishment of the Public Works Department must similarly have passed the University "Matriculation" Examination. Candidates for employment in the grades corresponding with the present Lower Subordinate Establishment of the Department Public Works, will be subjected to an entrance examination in Arithmetic, Kanarese and English.

4. If the number of approved candidates for either division of the school is in excess of the number required, the Chief Commissioner may, at his discretion, direct that selection be governed by a competitive examination in Mathematics, English and Kanarese.

5. Nominations will be made in the first instance without reference to the special department of the public service to which the pupils will ultimately be appointed. The first half of the course prescribed for both divisions will be occupied with such subjects as are common to the requirements of all three departments of the service. At the conclusion of the first half of the course, the students will be allotted to the several departments of the service, selection being made as far as possible with reference to the aptitude and inclination of each student. Thereafter the education of the students will be conducted with reference to the special requirements of the department of the service to which they are assigned.

6. An engagement will be taken from all candidates previously to final nomination, binding themselves with two securities in the sum of Rs. 2,000 for the Upper and Rs. 500 for the Lower Department, to serve the Mysore State, if required, in the Department to which they may be ultimately assigned, in any part of the Province to which they may be sent, for a term of not less than five years from the date of their final admission to the service.

7. The course of instruction in the Upper Division for pupils under training for the superior grades of the departments specified in the 1st para of this order will ordinarily occupy three years. The term may be abridged in the case of any student who is able to complete the course in a less period.

The fee for pupils while under instruction in this Division is fixed at Rs. 15 per mensem payable quarterly in advance, and they will provide their own books, instruments, &c.

The course of instruction for students in the Upper Division will embrace the following subjects:—

- I. Mathematics.
- II. Natural Philosophy.
- III. Mensuration and Estimate making.
- IV. Surveying and Levelling.
- V. Constructive Engineering.
- VI. Architectural and Topographical drawing.
- VII. Natural Science, including botany and vegetable physiology, chemistry, geology and meteorology (for candidates for the Revenue Survey and Forest Departments.)

8. The course of instruction in the Lower Division will ordinarily occupy two years, but the term may be abridged as in the case of the Upper Form.

Students while under training in this Division will receive from Government a monthly allowance of Rs. 8—0—0 per mensem during the first year, and Rs. 12 per mensem during the second year of the course, provided that no student shall be advanced to the higher scale of pay, whose conduct and progress do not in the opinion of the Principal entitle him thereto. Students in the Lower Division will be required to find their own books and instruments.

9. The course for the Lower Division will embrace the following subjects:—

- I. Mathematics.
- II. Surveying and Levelling.
- III. Engineering.
- IV. Drawing and Estimating.
- V. Account and Book-Keeping.
- VI. Elements of botany and vegetable physiology, chemistry and geology (for candidates for the Revenue Survey and Forest Departments.)

The course for candidates for the Lower Subordinate Establishment will be less difficult in degree than that to which candidates for the Upper Subordinate Establishment will be subjected.

10. Quarterly examinations will be held to test the progress of the students in both Divisions, and any student who fails to satisfy the Examiner at such examinations, or who is considered unlikely to attain the required proficiency within the period prescribed for the course, will be reported, in view to his removal from the school, in which case he will forfeit his claim to an appointment under Government. Cases of marked misconduct on the part of any pupil will be similarly reported with the same object.

At the close of the course a final examination will be held designed to test the general profici-

ency of the students in each division of the school. Seniority in the several grades and departments will be determined by the result of this examination.

11. Those students who pass will join the departments to which they are assigned, in the order of their passing, on probation for one year, at the end of which period, if they give satisfaction they will be confirmed and will thereafter be fully eligible for promotion. The appointments in the several departments of the Mysore service, for promotion to which in due course passed students will be eligible on the satisfactory completion of their term of probation, are as follows :—
